Vision

Anando envisions violence free and environmentally sound Bangladesh ensuring basic human rights with special emphasis on the empowerment of women, promoting viable entrepreneurship among the disadvantaged groups and nourishing cultural heritage for sustainable peace and solidarity.

Mission

Anando strives for culture of development and peace through integrated development approach, which enables individuals and communities to become self-reliant.

Forword from Chairperson

I am delighted to share that Anando has completed another successful year 2020. Over the last 23 years, Anando has implemented multi-dimensional development programs and activities to assist the most marginalized and vulnerable people including children, youths, women and men of Bangladesh. Through its programs and activities Anando has created employment opportunities for many unemployed youths, and provided education to hundreds of children and empowered thousands of poor people.

I am inspired to see that Anando has skilfully overcome all of its barriers, and continues to move forward towards bringing development in the country. I have read this report and found it very interesting and are delighted to see some very significant achievements of Anando in terms of community development, empowerment of community groups, self-employment and income generations, promotion of human rights, children and youth education as well as development and strengthening of organizations of the poor people.

I am deeply thankful to the management team of Anando for managing everything with great sincerity, technique and skilfulness. I also thank all the staff members of Anando who have worked very hard throughout the year 2020 with dedication. I would also like to express my sincere thanks to the Executive Committee (EC), and the General Body (GB) members for their benevolent support and cooperation in taking appropriate policy decisions. Finally, I would like to take the opportunity to express my gratitude and thanks to the officials of the NGO Affairs Bureau, concerned ministries, local administrations, donors and development partners for their constant support and cooperation.

I am looking forward for more meaningful outcomes in our efforts together with all stakeholders of Anando in the days to come.

Prof. Dr. Anisuzzaman
Chairman
Anando

From the Executive Director's Desk

The year 2020 has been a very important year for Anando with many challenges, activities, opportunities, and successes. Despite having multiple barriers we have managed to achieve our yearly targeted objectives which have been clearly articulated in this annual report 2020. I feel very proud and honoured to be able to present this report to our partners, donors, beneficiaries, government, development practitioners, the general body and the executive committee and the staff members of Anando, who live in Bangladesh and abroad. The report highlighted major achievements in respect to our mission and vision as well as the activities and experiences that we have accomplished during this reporting period. To make the report more enjoyable and informative to the readers, some pictures, facts, and figures have also been presented in it.

Anando always believes in people, and their wisdom. The lessons gained from the interactions with grass root level people, have been applied in structuring and implementing all programs and activities undertaken by Anando. Thus, all development activities and projects of Anando are very relevant and important to help the poor people to build their dreams and to overcome poverty by ensuring justice for all and by eradicating marginalization, unemployment and underdevelopment. Anando always worked with poor and marginalized people in all activities that include pursuing its vision and re-examining

its dreams, actions and reasons of successes and failures. Thus, Anando believes to achieve continued success and to fulfil its objectives and goals.

Through this report, I offer my sincere thanks to the generous donors such as Lichtbrücke. V. (Bridge of Light), Welthungerhilfe, Department of Women and Children's Affairs and the Ministry of Education for their spontaneous assistance and support to Anando. It would not have been possible to make this success towards peace and development without the assistances of these generous donors.

I would also thanks to all the development partners, Government Agencies especially the NGO Affairs Bureau, Microcredit Regulatory Authority (MRA) and the local administration of the project areas for extending their hands for Anando in every possible way. I would therefore acknowledge the contribution made by the members of the Executive Committee and the General Body of Anando. I would also like to extend my best wishes and sincere thanks to all of my colleagues for their outstanding contribution to the development of the organization, who have fulfilled their duties and responsibilities with dedication throughout the year despite having various obstacles.

To maintain our continuous success, we seek blessings from everyone in the years to come.

Maniruzzaman Miah
Executive Director
Anando

ABSTRACT

The Constitution of Bangladesh ensures equal access to basic necessities of life such as food, clothing, shelter, education and health care. Furthermore, it guarantees equal employment opportunities for both men and women without discrimination. However, a vast majority of the country's population is still unemployed and constantly struggling for their survival. Government and non-government organizations are working hard along with local community people to overcome the multi-dimensional aspects of poverty in the country. Anando is a non-political and non-profit oriented non-government organization established in 1997 to address some of the above challenges with its limited capacity and resources. This annual report has been developed to provide readers a brief and clear understanding on the activities undertaken by Anando during the year 2020. By the year 2020 and onward Anando has extended its work in 16 upazilas of 7 districts in Bangladesh. In 2020, Anando has implemented 13 projects through 3 regional and 2020 branch/project offices. Along with its activities the report also provides basic information of Anando such as its background, vision, mission, aims, objectives, the Executive Committee, the General Body, and the Staff Members and of legal status of Anando.

The five major Development Programs of Anando are: People's Institution Building Program, Children & Youth Education Program, Community Health Care Program, Homestead Agriculture Program, and Employment and Income Generation Program. People's Institution Building program has two major activities such as group formation and samity formation.

Children and Youth Education Program has been designed to ensure basic education for

poor and marginalized children through establishing Children Learning Centres. Training conducted on primary health care and, hygiene is the main activities of the Community Health Care Program. Homestead spaces utilization, farmers training on climate change and environment, establishment of nursery, credit support to farmers and distribution of agro-input such as seeds and saplings are some of the major activities of the Homestead Agriculture Program. Skills training conducted on basic financial management, identification and management of income generation sources are the core activities of Employment and Income Generation Program.

However, Anando has modified operational modality from group development to family development approach in pilot phase in Ghatil, Tangail from the year 2013, which is now been extended to Sarishabari Upazila under neighbouring Jamalpur District from 2016. We are now confident to have better result than others in integrated community based development approach in Bangladesh. Following is a detailed description of the Sectoral Development Programs:

Anando has seven programs; these are -Peace Education Program, Vocational Training for Youth Resource Development Program, Student Study Support Program, Community Based Disaster Management & Climate Change Program, Promotion of Judicious Culture, Environment & Ecology and Bio-diversity Conservation.

At the end of this report, photographs of project activities and a list of visitors have been included for the year 2020.

BRIEF OF ANANDO

BACKGROUND

Anando is a non-profit, non-political, and non-government development organization founded in 1997 by a group of teachers, journalists, development practitioners and social workers in order to uphold the socioeconomic status of poor people especially the disadvantaged rural people and youths through promotion of culture, peace and development.

Anando is a Bangla word which means 'Joy' (delighted and joyfulness). Anando, with its entire connotation, believes in the spirit of joy that involves not only an individual's happiness but also a greater community's happiness deriving from their living environment of a harmonious culture that upholds the amity of people of diverse religious groups existing from time immemorial. Anando also believes in peaceful coexistence of people that ensures justice and development, and treats all people equally, protects the rights of the poor and minority people of the society.

Anando, as its name implies, has undertaken various initiatives for developing a non-violent, peaceful, developed, and harmonious society in Bangladesh through promotion of cultural and youth resource development. It has undertaken diversified cultural activities and youth resource development initiatives through building capacity and skills towards organizational development among the local community people. Anando believes in bottom-up, non-directive, integrated and participatory development approaches and acts as a catalyst with its stakeholders who are financially disadvantaged due to lack of opportunities but have potentialities to strive hard for change and to stand on their own.

OBJECTIVES

The objectives of Anando are given bellow:

- Mobilize and help to build capacities of poor people;
- Provide educational facilities to the children, adolescent girls and illiterate people;
- Form self-capital as group fund of the beneficiaries;
- Creates income earning opportunities for the poor;
- Reduce gender discrimination involving women in decision making and economic activities;
- Ensure peace and protect heritage through community understanding & traditional cultural practices;
- Motivate community to work together for disaster preparedness and climate change (CC) adaptation;
- Utilization of homestead resources through organic practice and natural resource management;
- Provide appropriate trainings for need based skill development;
- Strive for network building with agencies at home and abroad for meeting emergency needs.

MAJOR PROGRAMS

Integrated Development Programs of Anando (at the Regional level):

- a) People's Institution Building Program
- b) Self-Employment and Income Generation Program
- c) Homestead Agriculture Program
- d) Child & Youth Education Program
- e) Vocational Training for Youth Resource Development

Sectoral Development Programs of Anando (at Central Office and Regional level):

- a) Community Health Care Program
- b) Peace Education Program
- c) Community Based Disaster Management and Climate Change (CC) Program
- d) Promotion of Judicious Culture
- e) Relief & Rehabilitation Program
- f) Environmental Conservation
- g) change and to stand on their own.

GENERAL BODY

The Anando general body consists of 27 members. Distinguished persons, professionals, educationists, development activists have been elected to the general body, which bring diverse experiences and skills to the Governance of the Anando.

The nine-member Executive Committee has been elected by the general body members for three years from June 2020

EXECUTIVE COMMITTEE

According to its constitution, the legal authority of the organization is the Executive Committee (EC). During the reporting period, the following Executive Committee (EC) formed and performed their responsibilities.

ORGANOGRAM OF ANANDO

INTEGRATED DEVELOPMENT PROGRAMS OF ANANDO

PEOPLE'S INSTITUTION BUILDING PROGRAM

Anando strives for cooperative endeavor for effective participation of the economically deprived people in economic activities and other development efforts. So, it is required to form and develop smaller associations like samities or groups as a development endeavor. Aim of building people's institutions, Anando encourages and assists rural poor people especially women to form smaller samities or groups. Women empowerment is essential for achieving goals of sustainable development. Each group consists of 15-25 women from homogenous social and economic class.

To work together by the members of the samities/groups is essential not only for their economic emancipation but also for their social and cultural advancement. Once the groups are formed and a certain degree of maturity is achieved in terms of social awareness and organizational capacity/ strength, i.e. together for tomorrow; Anando provides them with different types of assistance to help them progress towards empowerment and improvement of their overall socio-economic conditions.

MAJOR ACTIVITIES

Group Formation: In the project areas, Anando has organized 996 samities/ groups consisting of both male and female. Each samity/group is formed with 15 - 25 members. Anando has started People's Institution Building Program since 1997 and has gradually increased the groups in three operational regions under the scope of different development projects.

Anando samity/ group membership criteria: Group members are selected from the disadvantaged poor people. At the very beginning of the group formation field workers of Anando give them orientation on the objectives and purposes of group formation as well as on the rules, policies, activities and benefits of this membership. Actually, the group is considered as the transit for moving towards a bigger group, i.e., samity, consisting of couple of group members.

SAMITY FORMATION

After formation of different samity /groups, the field workers provide awareness raising training/discussion about the causes and root causes of poverty and the ways out of it. All these activities are done following participatory approaches. After formation of samity, Anando provides them training on socio-economic development, skill development on various IGA, group cohesiveness, and protection of their rights and basic education on reading and writing as a part of development process. The samity/group leaders are received training on leadership, group solidarity, and organization management and on networking to enhance their capability to challenges negative forces of under-development and all forms of prevalent injustices and the exploitative social system.

As part of journey toward sustainable development, the samity members sit together on a fortnightly basis and set the agenda for discussion on both social and economic affairs. Issue based dialogue continues maximum for 4 fortnights until some significant results are achieved. The number of dialogue is fixed at 4 topics maximum per year. Besides the fortnightly dialogue and samity meetings, the samity members are also trained on need-based technical know-how for the related income generating activities through various training programs under different projects. In this regard, Anando has been developing the people's institutions in its three regions since 1997. The group members also discussed contemporary issues relating to various social concerns with the assistance of Anando field workers.

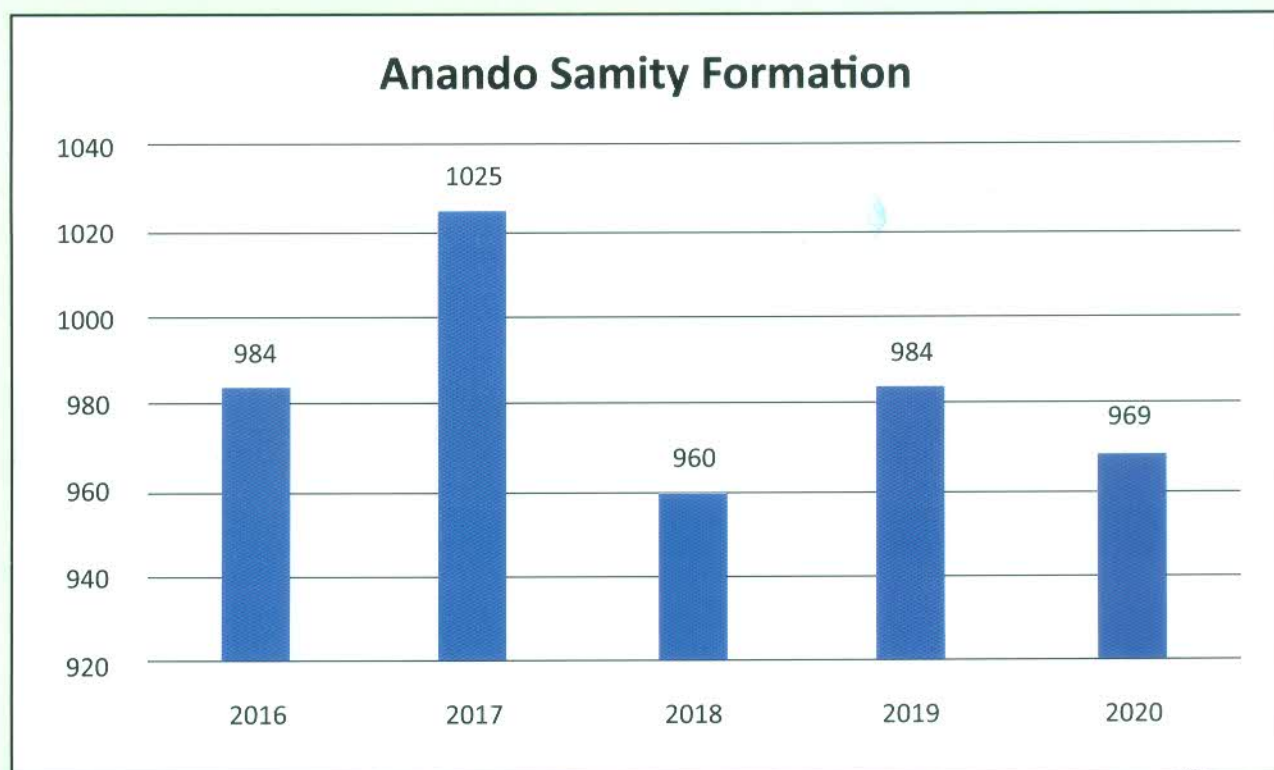

Table-1:Area/region wise target and achievement of samity/group formation.

Areas	Up to 2019	Newly formed in 2020			Cumulative Total
		Target	Formed	Dissolved	
Tangail	335	10	8	40	303
Cox's Bazar	237	0	0	0	237
Khagrachari	320	30	29	22	327
Gazipur	39	1	1	0	40
Jamalpur	53	15	11	2	62
Total	984	56	49	64	969

During the year 2020, Anando has formed 49 new samities successfully.

According to Anando, Group and Samity are the integral part of the People's Institution Building Program. Therefore, Anando has turned groups into samities along with the group formation activities, remarkable progress has been made in transforming samities and developing them into people's organizations.

ANANDO SAMITY FORMATION

EMPLOYMENT & INCOME GENERATION PROGRAM

Employment and Income Generation Program (EIG) is one of the major programs and an important initiative of Anando. The EIG program is being implemented through integrated family development approach. This program has been undertaken by Anando to make the poor people economically self-reliant and help them to attain a respectable social stands. The program includes training to beneficiaries on simple accounting and basic financial management, identification and management of income generating projects, and mobilizing group savings to Revolving Loan Fund (RLF) for expanded income generation of the target people. Anando wants to ensure economic self-sufficiency of the poor women by involving them in income generating activities at household level and by empowering them socially and economically. This program is not only for income but also to restore women's right both in their family and in community.

GROUP SAVINGS

The women member must meet once every fortnight for maintaining individual savings by entry into the passbook and in the bank through Anando. The minimum amount of fortnightly savings is Tk. 20. This savings is used as the guarantee of receiving loan. These savings are revolved as credit among the group members (if needed) with certain rate of interest. The following table-2 shows the area wise status of total group savings at the end of the year 2020.

Table-2: Area wise status of group savings.

Areas	Group Members	Opening Balance	Collection in 2020	Total	Refund / Withdrawn	Balance as on Dec'2020
Tangail	4,292	17,949,846	6961445	24,911,291	4937308	19,973,983

Less Refund in 2020	27559768
Closing Balance in 2020	89832116
Net Add in 2020	9777375

The total group savings is Tk. 89832116.

Taka 281740000.00 had been disbursed among 12650 group members as loans in the year 2020.

EMPLOYMENT & INCOME GENERATION (EIG)

Along with credit support Anando has provided different types of skill development trainings and marketing support to the women beneficiaries of the credit program. In order to receive credit, each group member is required to apply to Anando with consents from other members of the group. The executive members of the group screen the application and forward it to Anando for further action. After verifying the application, it approved loan with due information through the executive committee of the group. The cheque is disbursed to the credit applicant through an awareness building session with the participation of members of the same group. Active participation of group members in credit management has reduced staff involvement as

well as the management cost. Consequently, Anando can provide low cost credit to the poor group members with high realization rate.

While Anando prepares the group members for taking credit assistance, it also appraises the feasibility of the income generating activities (IGA) of group members. Anando has provided support services to the credit receivers and takes the responsibility to look after the IGA at various stages. Each group member is required to fulfill all criteria that include participation in relevant training and other input supports. Only by fulfilling these criteria a member becomes eligible for credit assistance to implement the feasible income generating activities.

The total group savings is Tk 89832116 at the end of the year 2020.

CREDIT DISBURSEMENT & REALIZATION IN THE YEAR 2020:

Taka 281740000.00 had been disbursed among 12650 group members as loans in the year 2020.

The table 4: shows the area wise target and achievement more explicitly.

Areas	Investment 2020			Realization 2020			Closing Outstanding Dec'20	Number of Loanes

Status of Disbursement and Realization in 2020

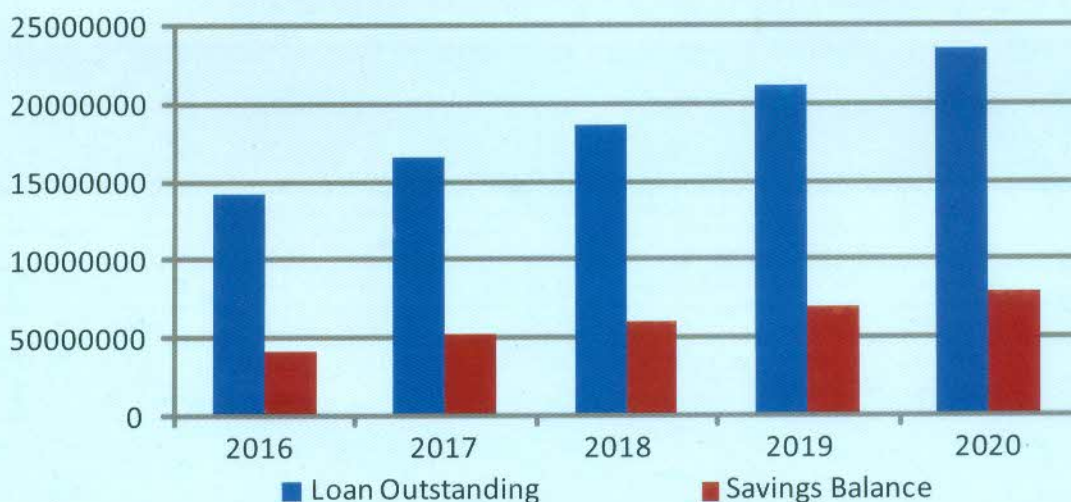

Small credits of Tk. 5,000 to 50,000 are provided to the group members to invest in the income generating activities like salt cultivation, agricultural farming, and livestock rearing, homestead agriculture, small trading, fishing, cottage weaving, handicrafts making, rickshaw purchase, etc. Besides the Micro

Credit, Anando has also provided Micro Enterprise loan among the experienced members amounting to TK. 51,000 – 1,000,000. Through these activities, the program is effectively helping poor people to increase employment and income that bring a positive change in their living conditions.

Table - 5: Anando credit program status of last 5 years.

Year-wise status of Anando Credit Program

HOMESTEAD AGRICULTURE & FOOD PRODUCTION PROGRAM

Bangladesh is a country of high population density with 155 million people within the boundary of 144,570 square kilometers. Almost 50% of total population is women who do not have formal jobs, access to other opportunities and resources. Most of these women are involved in homestead agriculture, but have very little knowledge on the use of appropriate technology required for homestead farming. Since inception, Anando has special concern for this program considering the shortage of food as well as malnutrition problems in Bangladesh. Homestead vegetable gardening is a vital component of traditional farming that can make a significant contribution to total food production, quality and diversity of the family diet containing vitamin-A, and micro-nutrient deficiency. Homestead farming includes a wide variety of fruits and vegetables production around the year and integrates animal husbandry into other homestead food production activities.

In Bangladesh a big number of homestead lands are still unutilized where mixed fruits gardens and vegetables could be grown for family consumption. In general people

misunderstand homestead farming can be only the cultivation of fore-yard (courtyard), whereas utilization of house cleaves, house roofs, homestead boundary lines, approach road, pond dike and its slope, adjacent low and high lands should be considered.

Anando is very careful in utilizing all the space components for maximum food production for family consumption and as a source of extra income that could be earned by selling of homestead products. Notably, Anando has explored 11 major homestead space components, where fore-yard utilization is one of the very common productive spaces so far.

Significance of Homestead Farming: There are 1,99,79,932 households in Bangladesh. Each household possesses a big home-yard for children's sports and a pond for family aquaculture is a traditional need. Thus, a large section of the country land is being used for homestead living and less amount of land for cultivation. Since, Bangladesh has huge population, hence, it is very vital to utilize every little bit of land for cultivation in

order to secure food supply for all. Cultivating vegetables or farming in the homestead is very important and convenient for women to look after the crops/husbandry properly. Homestead cultivation provides diversified nutrients and economic benefit to women round the year. In Bangladesh

women have an important traditional role in producing family food and improving family diet by wide range of homestead farming. Anando encourages homestead farming in an innovative way to improve farming practices by utilizing homestead to the maximum level.

Table-6: The performance of major activities of homestead agriculture program:

Activities	Ramghar		Dighinala		Ukhiya, Cox's Bazar		Total		
	Target	Achievement	Target	Achievement	Target	Achievement	Target	Achievement	%
Farmers trained on homestead farming/gardening/agri. methods	740	740	250	248	700	712	1690	1700	100.59
Farmers trained on poultry/ cow rearing	740	740	60	60	450	450	1250	1250	100.00

CHILDREN EDUCATION PROGRAMME

The literacy rate of the country specifically among the indigenous people is far below than that of national average. It is not possible for any development effort to achieve success leaving large number of people in the darkness. This problem is very acute among the disadvantaged groups such as the indigenous people and other ethnic and religious minorities of the hill districts of CHT-Bangladesh. There are many valid reasons for this existing situation. Traditionally, people of these indigenous communities have limited access to resources. Secondly, the children are reluctant to go to mainstream schools as most of them are unable to speak Bengali. In addition, the government education facilities are not adequate in the hilly areas. Since, education is the first prerequisite of development that helps enlighten people, grow consciousness, and to understand the social problems and the root cause of poverty. From this realization, Anando has initiated children education program in its three regional areas, i.e. Cox's Bazar, Tangail, and Khagrachari of Chittagong Hill Tracts (CHT). In cooperation with local community people Anando is putting all its efforts in

establishing and maintaining pre-primary schools for children. The place for establishing schools (Children Learning Centers) and the formation of the School Managing Committee (SMC) are done in consultation with the local community. The SMC is formed from the local community people. The Community Organizer of Anando selects a paid volunteer as school Animator with the assistance of the SMC. The Animator mainly works as the secretary of the SMC and he/she picks up children of age 4 - 6 years.

The main objective of the program is to ensure pre-schooling of the children who comes from poor family including motivation of the parents to send their children both CLC and to the nearby government primary schools. However, the education system of CLC is unique and different from the government schools. Because of its friendly and non-threatening learning environment the school receives highest number of students. The class sessions is run for 02.00 hours every day for five days every week. The local children enjoy learning their everyday lessons

through extra-curricular activities such as songs, drawing, dances, rhymes, etc. The ultimate purpose of this learning center is to prepare children to get admission into local Govt. Primary School. So far, 15,000 students have graduated from CLC of Anando which is being operated in three project areas since the inception of the education program. This year 725 students have enrolled into to 29 Children Learning Centers of Anando. After graduating from CLC of Anando, the children have finally been enrolled in local Government Primary Schools for further education.

Building and/or renovating of the Children Learning Centers (CLC) are the major components of this program activities along with delivery of education materials to the

school children; trained the CLC Animators for qualitative and easy teaching skills. Training of Trainers (TOT); Conduct regular schooling; motivate the parents and community people to send their children to school regularly; annual children fair and parents gathering; finally, enrollment of children to local Primary Schools are the major activities of CLC. The inclusion of the following activities makes class lessons more innovative and attractive to the children:

- Study support - Teaching materials
- Art competition
- Cultural activities
- Exchange/exposure
- Annual children fairs
- Learning through practical tasks

The Progress

This year total 725 children were enrolled into 29 Pre-school/Children Learning Centers. The student attendance performance was also excellent (100%) till Match 2020. However, due to COVID19 Pandemic the classes in the Learning Centers/pre-school suspended from April to December 2020. The Project team was waiting till December 2020 to get government permissions to resume the classes again. In the meantime, the children have continued their education at home following the Anando Pre-school Curriculum. In order to continuation of the children education, Anando has continued the salary of the Teachers of each pre-school and the teachers have continued close follow-up to the children/students at their (students) door step during April to December 2020. The children also continued their study at home. Also, the teachers have facilitated the children to continue the extracurricular activities and play at home during the closed period.

VOCATIONAL TRAINING FOR YOUTH RESOURCE DEVELOPMENT PROGRAM

The youths in Bangladesh are underutilized due to lack of their appropriate skills. In Bangladesh very little steps have been taken so far for opening up avenues of skill development for the rural youths, who are generally deterred from entering into public training centres due to lack of academic qualifications and required costs. However, it is commonly recognized that minimum could be expected from the youths unless their technical potential is developed. An important contribution made by Anando in this field is the vocational training for youth resource development program.

VOCATIONAL TRAINING CENTRE –VTC

Anando has a very well-constructed building under this program. The building is 1,450 square meter long and semi-pucca that has a veranda and six rooms for arranging classes and project administration. The VTC also has 422 square meter open workshop space and a

924 square meter long two-storied full-pucca-dormitory that provides accommodation to 30 students including dining hall, bathrooms, toilets, and two guest rooms for visitors. Also, a three storied girl's hotel has been constructed in the VTC and 20 girls are accommodated in the hostel.

During the year 2020, 99 unemployed youth (36 girls' and 63 boys) got their admission and continue their classes till March 2020. Since then the training courses remained closed due to pandemic of COVID19. However, after successful completion of one-year skill development training in different courses including 3 months' internship in the local production shop/institution/company. Out of 99 students (Boys-63 & Girls-36), 50 students were provided with hostel facilities as they came from distant places. The scope of utilization of this centre is expanding gradually and Anando has planned for maximizing its further usage.

Table-9: The target and achievement of major activities of Vocational Training Centre (VTC) in 2020.

Name of Course	Target	Admitted	Remarks
Electrical	20	20	The training classes suspended due to locked down for prevention of COVID19 pandemic
Mechanical	20	18	
Electronics	20	16	
Welding	15	15	
Tailoring	30	34	

SECTORAL PROGRAMS OF ANANDO

1 Wet hands and apply soap

2 Rub hands together, palm to palm

3 Right palm over back of left hand and then left palm over back of right hand

4 Rub palm to palm with fingers interlaced

5 Backs of fingers to opposing palms with fingers interlocked

6 Hold right thumb in left hand and rub. Repeat with left thumb in right hand

7 Rub clasped fingers of right hand in left palm and vice versa

8 Rinse, and dry hands thoroughly, ideally using a paper towel

COMMUNITY HEALTHCARE PROGRAMME

Vast populations of Bangladesh are poor and live in the vicious cycle of poverty including health problems. In Bangladesh many government institutions and non-government organizations are working together to reduce poverty, but without addressing the health problems properly, any kinds of development initiative will not sustain. Poor-health is like pores in the pitcher that consumes family income for medicine as well as creates barriers in attending workforce due to sickness. The health care facilities provided by the GO and the NGOs are not adequate for the poor people of Bangladesh especially the ones who live in the rural areas of the country. Many poor people do not have access to the Gov-

ernment health care facilities and other resources. The poor people are also in lack of knowledge of primary health care. All these facts caused more problems and make poor people more vulnerable. In order to help the poor people, they should have better access to healthcare facilities. Anando has initiated different community healthcare program activities in its three regions. Under the community healthcare programs, Anando conducted awareness raising training to the poor people on primary healthcare and provided them healthcare services, in particular in the area of preventive healthcare services.

Provided Healthcare Services

Sl. no	Particulars	Target	Achievements	Remarks
01	Training on Mother and child healthcare	90	90	Group's leaders are participated in the trainings.
02	Workshop on right to access in health services between group leaders and Upazila Govt. health service providing organization	60	60	Mothers and representatives of health service providers participated.
03	Selection of 06 Village Health Promoters	06	06	Village health promoters.
04	Capacity building trainings for village health promoter	06	06	Village health promoters.
05	Training on food and nutrition.	2500	2467	To mothers and adolescent girls.
06	Training on dietary diversity	2500	2325	To mothers and adolescent girls.
07	Latrines distribution	250	250	Families.
08	Hand Washing Sessions	32	32	Children and parents.
09	Hygiene Promotion Sessions	13000	12422	Men and Women.
10	Interactive Popular Theatre	32	32	Rohingya and Host Communities.
11	Hygiene Kits Distribution	17500	17500	Rohingya women.
12	Hygiene Top up kit distribution	10000	10000	Rohingya women.

However, major activities of community health care program including immunization program from Govt. health services are now added as one of the vital components of

'Integrated Community Development Program' being implemented under different regions of Anando in Bangladesh.

PEACE EDUCATION PROGRAM

PEACE EDUCATION PROGRAM

The incident of violence against human rights is occurring every day, especially in rural areas due to lack of understanding and mutual respect to each other. Apart from this, lack of education, inter-ethnic communication gap, lack of awareness about human dignity and rights, and lack of capacities in conflict management always act as stimulates to violence and injustice.

The occurrence of violence and injustice are diversified in Bangladesh. Land grabbing by the powerful people, communal hatred, family quarrel, ethnic conflict between communities, existence of militant groups in different forms, existence of high rate of dowry, polygamy, early marriage, extra-marital affairs, and wife beating are major causes of violence and injustices at individual and family level that frequently affect the peace and harmony in rural communities. The Chittagong Hill Tracts (CHT) of Bangladesh is more conflict prone areas compared to other parts of Bangladesh. CHT

was under the political unrest for more than two decades over the control on natural resources between its indigenous people and the state armies.

Despite the Peace Accord signed in 2nd December 1997 between the Parbarty Chittagong Jano Sanghati Samity (PCJSS) and the Bangladesh Govt., there is mutual trust between the Bengalis and indigenous people still exists in the Chittagong Hill Tracts. In some places there is also conflict among the different indigenous communities. These are exploited by the vested interested forces and creating impediments in development of the region and of the country as a whole.

In above situation, Anando has undertaken initiative of introducing Peace Education Program, to restore the community values and respect for each other. In addition, the program aims to increase the level of people's capacity and affordability to approach formal or informal legal services

and to create a regular community based activities for community and social harmony. At present Anando implements its peace education program mainly in Khagrachari but peace dialogue is going on among the group members in other operational areas also. Two projects are being implemented in 3 unions of Khagrachari. The projects are being implemented with an aim of increasing confidence and trust among individuals and community people through peace education, awareness building and conflict management. These projects have also carries a full program component on peace and conflict management emphasizing ethnic rights in CHT.

Anando has implemented series of activities of these issues since the inception of the program. Some of its major activities includes providing awareness building paralegal training on human rights and land rights to group and local community members; providing training on legal rights and awareness building within the peace process, organizes workshop and dialogue sessions on inter-societal peace particularly family peace and harmony; providing legal aid on land and human rights issues; organizing training on conflict management for group leaders, and developing peace network at least among 6 NGOs working for the local community for well-being.

OUTCOME OF PEACE EDUCATION PROGRAM

- Through this project- people have started to believe that conflict resolution for community brotherhood is a vital element for sustainable development;
- People have also started to join each other's social festivals and special days, village meetings, and community dialogues;
- Both the Bengali Muslims and different indigenous community representatives started sitting in the same venue to exchange opinion on different issues;
- They feel encouraged to attend some common forums like Bengali New Year, Boisabi, and World Peace day on 21st September 2020 which was hardly imagined earlier.

The program is now being implemented among the credit group members in CHT-KHG, where 4,264 group members are working in three upazillas i.e. Matiranga, Dighinala and KHG-Sador. Anando has implemented among its 3,000 selected group members incorporating 1,000 from each upazilla.

PROMOTION OF JUDICIOUS CULTURE

Anando intends to promote and utilize these elements in its peace and development activities in one hand, and promote major elements of our culture including indigenous culture and heritage on the other hand. Anando wants to achieve this objective by helping the local cultural activities and forming cultural groups to perform cultural programs at national and international levels to uphold our national traditions and culture.

In addition, Anando has provided support to many cultural groups (performing cultural events) in the rural areas and their activities. In the beginning of the program, Anando also formed a cultural group comprising of many performing artists, at the national level who have once participated in many cultural programs in the form of dance, song and play to promote and preserve the beautiful culture of Bangladesh especially the rural folk culture and heritage that are slowly disappearing due to lack of practice. These programs were greatly appreciated by development activists, researchers, policy makers, and by civil society members of the country and outside of the country.

The promotion of judicious cultural program involves massive study and research on our culture and heritage. We recognized that cultural program based on popular theatre is widely accepted by people everywhere around the world. Thus, we can use theatre as a medium of communicating with mass people. We can easily inspire people from

both rural and urban settings despite of admitting all sorts of suffering and hardships. Considering this potentiality of cultural activities, Anando formed many cultural groups in 1998 but, unfortunately it became inactive when Fr. Klaus Beurle, the founder of Anando, left Bangladesh for his home country Germany. After 7 years, from 2008 onward Anando again took initiatives of forming cultural groups selecting local youths who are culturally resourceful. So far, three cultural groups have been formed in the three project areas of Anando. In the near future Anando intends to incorporate these cultural elements in an expanded way in its programs and activities to promote values among people towards developing a society that would be harmonious, democratic, gender-sensitive, environment friendly and peaceful. We plan to work on this project under the generous support of Die LichtBrucke (DLB) of Germany.

Activities:

- Formation of Cultural Groups
- Encourage and nurture the local and neglected culturally resourceful people specially adolescents and youths
- Cultural orientation to CLCs (pre-school)
- Distribution of cultural instruments among local cultural groups
- Perform regular and seasonal cultural program
- Keep constant vigilance on the progress of performances of selected members of the Anando central cultural team.

ENVIRONMENT & CONSERVATION

In the recent past Bangladesh was full of valuable natural resources such as plants, animals, fishes, river and other sort of water bodies. At present the population growth in Bangladesh is rising very high everyday as well as their needs are growing bigger. As a result of this high population growth and unlimited want of people, the entire natural resources are under serious threat. Consequently, an abnormal climate change has gripped the country. In Bangladesh we have bio-diversified natural resources like Sunderbans, and Modhupur forest. There are a series of short to medium high hills in the CHT. However, like in many other parts of Bangladesh the hills and valleys of CHT are becoming almost barren because of enormous greed of power holders, livelihood pressure of the poor people on forest and homestead resources, unplanned Jum cultivation and resettlement of the new Bengali community. These have resulted in

reduced water fall of hills, which may be considered another degenerative factor of degraded bio-diversity in the CHT.

Due to massive deforestation as well as growth of population the global temperature is also increasing. The increase of atmospheric temperature, the increasing level of seawater, the increase of carbon dioxide in the air, the high salinity of water are the indicators of clear Green House (GH) effect. Today in the era of science and technology, it is true that most of the educated men and women are more or less aware about Green House and its long-term effects. However, only very few people know that they are going to be the worst victim of the adverse effects of Green House in the very near future.

The Environmental Scientists have observed that the growth of carbon dioxides in air has

increased. In 1750 AD, percentage of carbon dioxide in air was 0.0275 that increased to 0.0316% in 1759 AD. The last in 1993 AD, it appeared as 0.0357%. These days the rate of using coal, oil and other mineral products are increasing rapidly in one hand; on the other hand the forest coverage is being reduced. In this context, the bio-scientists are assuming that in the middle of twenty-one century the percentage of carbon dioxide will reach to 0.04% - 0.06%, which is 24% higher than that of the last amount. If the amount of carbon is not lowered down to 350 PPM, there is a real concern of global disaster in coming future. As responsible human beings of this era we should take some measures before reaching the percentage of Carbon-Dioxide in air to its last limit.

To achieve this goal, it is absolutely necessary to build awareness among the people at all level on the hazards of climate change. This community awareness building on climate change would build gradual bio-awareness for community protection in advance. Since 1997 Anando has development activities in 3 Upazilas under Khagrachari of the Chittagong Hill Tracts and infra-structure on own lands. In this context, they feel comfortable in doing such human beneficial awareness building.

CHANGING EFFECTS UPON COMMUNITY

The growing bio-approach in these hills is now having effect on forest dweller's community life. During survey, it has been observed that income increases in Voirafa Para 30.62% and in Ghonapara 40.74%. The average income of pilot site beneficiaries increased 35.68% than at initial. In particular average income from fruit production increases 55.27% in pilot site compared to baseline survey. The improved cook stoves are used by 29 out of 35 i.e. by 83% in pilot site. As a result, forest fuel wood/timber consumption rate is reduced on an average 80.70%. The bamboo sale from canal side helping the families much for a better living than before. It is also providing fuel wood from boundary lines set in homestead and valleys nearby. So, they need not to forest every day, just one or two days/week, simultaneously by this time, it revived 3 endangered species i.e. Chaplasha (*Artocarpus chaplasha*), Garjan (*Dipterocarpus alatus*), Champa (*Michelia champaca*) as sign of stimulating biodiversity locally. Anando feels to continue this program for a longer period in CHT formulating a new policy with Arannayk Foundation.

Community Based Disaster Management and Climate Change Adaptation program

Anando always participate in the disaster management and humanitarian crisis in the local and national level. Anando has implemented a series of projects under this sectoral component. During the reporting period Anando participated in the Response to Rohingya Refugees crisis in Cox's Bazar.

As the new arrivals (Rohingya refugees) have taken shelter in various places and sites. The newly arrived Rohingya as whose have still moving, have also been trying to lead their livelihoods in the host communities, but the new arrivals who has taken shelter in the existing camps has made an effect to the normal life and livelihoods of the registered

refugees. A team of ANANDO Cox's Bazar regional office has visited the areas and the camps and primarily assesses the situation and that the new arrivals Rohingya refugees particularly the women, children and elderly have been facing huge humanitarian challenges in terms of access to food, safe drinking water, proper sanitation, appropriate hygiene practices, nutrition, shelter and protection.

The Government of Bangladesh has broadly considered the refugee influx issue from humanitarian perspective and has decided to host them through establishing new camps at 3,000 hectre of lands in the areas of Teknaf

and Ukhiya Upazila under Cox's Bazar district. The Government has also taken initiative to register them and provide identification cards. The United Nations has made a call to the humanitarian community in response to Rohingya crisis. The UN has developed a Response Plan to support the refugee influx. In this connection, UN has made a call to the international community for immediate assistance to respond to the Rohingya crisis from the humanitarian perspective.

Anando with support from Welthungerhilfe and cooperation from BMZ, Germany has implemented humanitarian assistance project for the Rohingya refugees in Bangladesh with food aid and WASH support. The project did not face any major security risks during its implementation. The implementing partner of Anando has been operating activities over there since 1997, and already has established strong relationship with the community and other stakeholders, which has assisted to develop certain level of acceptance to minimise possible risks.

- 2,508 refugee families received life-saving assistance with food aid to meet emergency needs.
- 1,840 refugee families received hygiene kits support in order to meet their basic essential needs.

In order to mainstreaming gender, the project considered and used gender mainstreaming framework/ tool for humanitarian programming developed by the humanitarian agencies. Special considerations were given to target the women and girls, while the protection and SGBV were given due consideration during the implementation of the project activities. During the short life span of the project, it has captured few important lessons learned which would be useful for future humanitarian responses for the implementing partners/ other humanitarian agencies.

Field level coordination is the key to implement complex humanitarian response. Due to the Government bureaucratic process in order to access to the refugees in the camps

and settlements, the distribution process was bit delayed and slowed down. Anando as the project implementing partner pro-actively contributed to the local level coordination process with Government, military, UN and other humanitarian actors, which has contributed to overcome the problem and speed up the distribution process.

It is essentially important that food aid needs to be combined with basic essential household requirements such as hygiene kits in order for greater impact of the project. Anando collaborated with WASH sector and WFP and distributed hygiene kits for the refugee families whom were targeted for food aid assistance.

The refugees and also the local communities hosting the refugees need to be supported with livelihood and self-reliance assistance in order to reduce the level of their dependency on the external assistance. Humanitarian agencies need to be focussed on to livelihood based programming as many agencies are currently working on to food aid assistance.

Sustainability:

During the food aid and hygiene kits distribution process the project conducted various orientation and sensitization sessions for the project beneficiaries in order to equip them with various knowledge and information. This will remain with the targeted project beneficiaries even after their repatriation.

Technical capacity of the implementing partner "Anando" has been improved provided that it has been working with the refugees for the first time. This capacity of Anando will remain as organizational capacity which could be transferred to other colleagues of the organization.

During the implementation of the project activities, Anando has interacted with many stakeholders at local and national level through which Anando has joined various networks and coordination platform. This will sustain, and be used for any future programming.

Relief and Rehabilitation Program

Anando always conducted relief and rehabilitation program aftermath of the disasters. Anando has conducted relief and rehabilitation program at Sarishabari area.

At Sarishabari area in two unions (Pogaldigha and Aoana), most of the houses, latrines, tube wells, roads, poultry farm, cowshed, and vegetable gardens, others agricultural crops are damaged by floods. More than, 300 families of Integrated Family Development project have been affected by floods during this period. Thanks to LB-Germany that such a bad situation they have extend their helping hand to the vulnerable families. Anando is so much grateful to LB Germany for this kind of help. Anando has performed different types of activities which is immediately needed to the vulnerable families.

Anando has operated the following activities immediate after the floods as a rehabilitation work.

Start-up Support Distribution: Most of the enterprises were damaged by flood of the

beneficiaries which they had taken before flood. If they did not get such kind of support it was not possible to start again. Financially they were lost everything and there were not any alternative ways to start again their enterprise. Anando has distributed start-up support again among 300 families to reorganize their enterprise once again. After getting the support they have started again their new enterprise and recovered their loss which was damaged by flood. Now the flood affected families have become a stable financial situation.

1. Training on Winter Crop Cultivation
2. Distribution Seedling/Saplings
3. Raising and repairs homes damaged by flood
4. Two days training on Livestock
5. Support distribution of local verity chicken
6. Raised, repair and maintenance of 10 Pre School
7. Installed water pump, repairs and raised the platform of old hand tube well (HTW)
8. Re build water sealed latrines

PROJECTS IN 2020

Vocational Training Centre for the Poor Community at Hilly Khagrachari Project

The duration of the project is from January 2016 to December 2020 and financed (4,024,962 Taka) by Lichtbrücke.V. Germany. The project area covered the locations are Khagrachari, CHT. The project beneficiaries are 270 families.

Chittagong hill tracts (CHT), the eastern part of Bangladesh is known the domain of 11 minority ethnic groups. The way of life and culture of these ethnic groups are completely different from the rest of the country. Among the hill people especially in Khagrachari, the literacy rate is very poor, there is no any scope for the skill development of drop out adolescent and youth and they become a burden of the poor parents. The city of Khagrachari is the business centre of the district Khagrachari. The main trade of the district is centred in Khagrachari city and therefore, most of the workshops are located here. There is also another increase in development in Khagrachari after the 1997 peace agreement.

Goal: To involve hilly youths in income generating activities and to help them become self-dependent through skill development and providing capital for income generations.

Objectives:

- To involve hilly youths in income generating activities and to help them become self-dependent through skill development and providing capital for income generations;
- To create job opportunities for the hilly youths;
- To make the youths to involve in income generating activities and to provide them scopes to avoid antisocial activities.

Results

Result-01: Selected, admitted and trained to 270 youths, of them girls in 5 basic trade courses under VTC within 3 years of project duration.

Result-02: Provided internship trained to all admitted trainees of 5 trades of VTC.

Result-03: Business community of Khagrachari is actively involved in the training process.

Result-04: Basic entrepreneurship skill development training will provide to the 270 interested/selected/passed/graduates trainees of VTC.

Activities and Achievements:

The 15th batch students have been admitted in all the four trades and continued their training classes till March 2020. However, due to Pandemic of COVID19, the training classes are adjourned till December 2020 and onwards. The duration of the project is from January 2016 to December 2020 and financed (4,024,962 Taka) by Lichtbrücke.V. Germany. The project area covered the locations are Khagrachari, CHT. The project beneficiaries are 270 families.

Girls Hostel and Tailoring Training at Khagrachari Project

Girls are receiving only for tailoring training and boys are receiving in others trade training. They have a hostel facilities and it has established in 2008 only for 20 Girls with fooding, lodging, playing and recreation facilities. For this reason, Girls are coming so far and receiving training with very successfully. They will be employed or self- employed after completion of their training.

It is our great pleasure to achieve the 4th year of 1st phase of (March-2015 to December-2020) of the project name "Vocational Training Centre for the Poor Community at Hilly Khagrachari, Additional Girls Hostel". The project/ training was started on January-2016. The Chittagong hill tracks (CHT), the eastern part of Bangladesh is known the domain of 11 minority ethnic groups. The way of life and culture of these ethnic groups are completely different from the rest of the country. Khagrachari district of Chittagong Hill Tracts (CHT) is hilly, terrain and forest dominated area. It has about 62% households in the region irrespective of ethnicities are living below absolute poverty line, while 36% are hard-core poor. Among the hilly people especially in Khagrachari, also the literacy rate is very poor, there is no any scope for the skill development of drop out adolescent and youth and they become a burden of the poor parents.

Anando has been operating a Vocational Training Centre (VTC) since 2008 under Anando Khagrachari region, for the skill development of drop out adolescent and youth and they become involve in income generating activities and have better life. Every year there are 30 girls receive Training on Tailoring/Dress Making. From the beginning of VTC 20 boys have been enjoying hostel facilities though there nothing such created for the girls, who deserved foremost since 2015.

Goal :

To involve 30 hilly poor adolescent girls in income generating activities and to help them become self-dependent through technical skill development training.

Objectives of the Project :

- To accommodate hostel facilities for 20 poor adolescent girls.
- To organize cultural activities for girl's hostel.
- To provide technical skill training for 30 girls through tailoring training.
- To provide them technical books support.
- To provide food facilities for the trainees.
- To conduct weekly, quarterly, monthly, mid-term and yearly exam.
- To arrange 2-month workshop attachment training in local market.
- Certificate award and prize given among the successful trainees in every year.
- To arrange job opportunities of passed out trainees and help them become self-dependent.

The duration of the project is from March 2015 to December 2020 and financed (9,661,600 Taka) by Lichtbrücke.V. Germany. The project area covered the locations are Khagrachari, CHT. The project beneficiaries are 80 families.

Activities and Achievements:

The students have been admitted in the tailoring trade and continued their training classes till March 2020. However, due to Pandemic of COVID19, the training class is adjourned till December 2020 and onwards.

SUDOKKHO

One of the key focuses of Anando is Promotion of Culture and Youth Resource Development. In order to development of youth as potential resources, youth's skill development is one of the best ways. To develop the job skills of youths, training is the most important tools. Taking consideration of above, Anando already involved as a skill training provider. For training facilitation, Anando has its own training centre with residential facilities. Annually, 105 youths received training from the training institute. Out of which, 89% youths are now employed at Energypac Engineering Limited, Walton, My one Electronics, Matador Group, Dhaka EPZ, Abul Khair Steel Mill, KDS Group, PRAN-RFL Group, Dutch Bangla Pac Limited and Standard Group and some are became self-employed also.

The key vision of training institute is to render the skills development facilities for the rural community people who actually in need of that kind of support. We have established the operation of training institute as for people and cultural centre which will self-sustain gradually step by step.

The community people, those who have received training from our training institute are now got employed and doing their job

successfully. Around 89% training participants have obtained their job and now under income.

The training institute was continued by the donor fund. The training courses are provided to free of cost as charity to the community participant. However, we have planned to make profit by earning training cost from the trainees and employers. Also, throughout the training some products have been produced and we are selling those products. For example, from tailoring training we get ready made dress and sale these to the community and earn some training materials cost. The welding training participants worked to construct houses at the community and earn money that they can pay the training fees. Similarly, from each trade of training, we get some income that can supplement the training cost. We have worked with social welfare ministry and they have paid the training fees once only. We have planned to sign a contract with Red Crescent for collecting training cost for the youths.

Activities and Achievements:

Total 40 students in two batches have been graduated since March 2020. Until than the project has been closed due to COVID19 Pandemic.

The Provision of Development Support Service to Women under the Vulnerable Group Development Program (VGD)

Anando has been working with VGD program since 2019 in Matiranga, and Dighinala Upazila of Khagrachari district toward development self-reliance of 2,525 VGD women. Anando is proving income generation and life skill training and organizing savings of the beneficiaries.

Objectives of the Project:

To build the income earning capacities of VGD women and to socially empowered them through training on awareness raising, provision of training on variety of income generating activities.

Training:

As per Plan and training manual Anando provided training among 990 members on disaster risk management, personal hygiene, food and nutrition particularly for mother and children, gender equality and women empowerment, livestock training cow and goat rearing, vegetable garden-

ing, poultry and entrepreneurship development as of December 2019, Under circle 2019-2020.

The duration of the project is from 2019-2020 cycle is from January 2019 to December 2020 and financed (23,85,100/- Taka) by Department of Women Affairs (DWA). The project area covered the locations are Khagrachari Sadar & Dighinala Upazila. The project beneficiaries are 2525 families'.

Activities and Achievements:

Due to COVID19 Pandemic, the trainings to the beneficiaries adjourned. However, the food distribution and savings generation activities are continued as follows:

1. Savings Collection: continued as of TK. 1,21,20,000.00/- by 2525 women.
4. Food Distributions: continued to 2525 women.

Basic Literacy Project (64 District)

The Basic Literacy Project (64 districts) has been designed to prepare 4.5 million learners enable to gather further education and livelihood skill training in order to foster a better life style and to develop them as enlightened and productive citizens involved in lifelong learning. Its coverage area is 250 selected Upazilas of 64 districts of the country. The program of the project will be implemented through building partnership with selected implementing NGO's.

Objectives :

BNFE has designed Basic Literacy Project (64 districts) to achieve a group of objectives. These are as follows:

- To provide Basic Literacy and Life Skills to 4.5 million illiterate adolescents and adults of 15-45 age group;
- To contribute in eradication of illiteracy from the country as well as achieving global and national EFA goals as envisaged in NPA-II and the Sixth Five Year Plan;
- To contribute in implementation of the National NFE Policy-2006 and the National Education Policy-2010;

Beneficiaries and Stakeholders of the project :
The illiterate adolescents and adults of 15- 45

age group are the direct beneficiaries of this project. Among the direct beneficiaries 50 percent are male and another 50 percent female. The project will make access of 13,452 People (223 Centre) illiterate adolescents and adults of 15- 45 age group to basic literacy. The illiterate adolescents and adults of 15- 45 age group from marginalized and hard core poor households and outcaste minority communities and those who are living in remote locations will be given special emphasis. The assignment will be implemented for the period of 10 months.

The duration of the project is from June 2020 –July 2021 and financed by Government of Bangladesh. The project area covered the locations are Matiranga & Panchari Upazila. The project beneficiaries are 36,0060 People (601 Centre).

Activities and Achievements:

Due to COVID19 Pandemic:

- Since February 2020, Learning centre materials purchased and waiting to open 223 learning centres.
- Waiting to get government permission to start the Learning Centres.

Empowering Women for Socioeconomic Development in Ramghar Khagrachari, CHT-Project

The duration of the project is from November 2018 - December 2021 and financed (4,30,49,014/= Taka) by Lichtbrücke.V. Germany. The project area covered the location is Ramghar Upazila, Khagrachari District. The project beneficiaries are 900 families.

Objective: The socio-economic status of disadvantaged rural communities in the Ramghar district is improved and women are involved in rural and family economic and decision-making processes.

Outcome: The low income and social situation of 900 families in Ramghar has deteriorated, and family and community conflicts are resolved

peacefully.

Output-1: The productivity of households and the home garden of 900 families is increased.

Output-2: Women are involved in economic activities and their families receive start-up support and advice.

Output-3: Gender discrimination in the village communities and violence against women are reduced.

Output-4: A successful enrolment of 750 children from poor families takes place and the school drop-out rate in primary school is reduced.

Regional programme for promoting a multisectoral approach for Nutrition Smart Villages (NSV) in Bangladesh, Nepal and India

The duration of the project is from September 2018 – November 2020 and financed (Euro 2,29,350) by Welthungerhilfe, Germany. The project area covered the location is 30 villages under Merung and Kobakhali Union of Dighinala Upazila, Khagrachari District. The project beneficiaries are 6300 families.

Overall goal:

The overall goal of the project was to improve the living conditions of women and children especially affected by food insecurity in Bangladesh.

Objective:

To contribute to food and nutrition security (SDG 2) amongst women of reproductive age and young children from vulnerable and food insecure families in Nepal, Bangladesh and India.

Result 1: Knowledge, awareness and

practices of extension workers and relevant authorities as well as target households on diet diversity, maternal-child care, nutrition sensitive agriculture and WASH are improved.

Result 2: Improved availability of diverse foodstuffs for households, particularly for women and children by fostering nutrition-sensitive and climate friendly agriculture.

Result 3: Community based organizations, village level institutions and local government bodies in target areas are capacitated to access government programmes and entitlements.

Result 4: Enhanced access of government and development actors to data, evidence, information and knowledge on replicable models to guide multi-sectoral programming towards better nutrition.

Improve Livelihood situations & Peace building of the hosting communities of Rohingya Refugees in Ukhiya, Cox's Bazar

The duration of the project is from September 2019 to December 2022 and financed (6,65,60,520/= Taka) by Lichtbrücke.V. Germany. The project area covered the location is Ukhiya Upazila, Cox's Bazar District. The project beneficiaries are Rohingya 800 families and 1000 Host Community Families.

Project Goal:

Improve livelihood situations & Peace building of the hosting communities and Rohingya Refugees in targeted areas of Ukhiya, Cox's Bazar.

Project Objective:

To improve the capacities of 1,000 families of host communities and 800 families of Rohingya refugees on food production and Income Generating Activities towards

employment generation of Host community and Rohingya Refugees.

Project Results:

Result – 1: To increase nutritionally balanced food intervention through small scale agriculture using homestead space resources and fallow land of 1,000 host families.

Result – 2: To increase technical knowledge & skills on vocational education of 120 beneficiaries (60 Host and 60 Rohingya).

Result – 3: Community Peace groups formed from Host (10) & Rohingya (10) Communities and empowered to take action in conflict resolution and gender based violence at local levels.

Emergency aid for Marginalized Children and their Families hard affected by the lockdown due to COVID19 Pandemic in 4 Sub-districts/ Bangladesh

The duration of the project is from July to November 2020 financed by KindermissionWerk Germany. The project area covered the location is Ramu Upazila, Cox's Bazar District and Madhupur, Ghatail, and Delduar Upazilas of Tangail District. The project beneficiaries are 4,400 Households.

Project Goal:

The overall goal is “Emergency survival support to the affected marginalized children due to locked down for Corona Virus (COVID19) response in Bangladesh “. The expected long-term effect is that the targeted group will be in a culture of resilience of safety. This may happen as they will be educated to face locked down period due to natural disasters. Also, they will generate savings of money to face such suspended income/jobless situation as caused due to hazards. The broader impact included a society without periodical starving and survival of out of life threatening diseases/disasters and hazards. The applied indicators are:

- % of target group individuals are sensitized on prevention and response to Corona virus to reduce the probability of infection and outbreak.
- % of affected children and their family members are out of starving with distributed foods for their survival and safety by staying at home during the locked down period.
- % of households that are observing locked down and maintaining social distance intensively.
- % of individuals who are practicing the

hygiene behaviours like hand washing by sanitizers, using mask and hand gloves, etc. to prevent Corona virus infection.

Project Objective:

The proposed project will improve from the crisis period of target group as caused due to locked down for prevention and response to Corona virus. Due to locked down, the target group became jobless and lost their income. Due to suspended income, they are not able to purchase of foods and also in shortage of foods. Due to lack of economic capacity, they are not able to purchase hygiene (sanitizers) and prevention (mask, gloves) materials. This situation leads them to bound to not maintaining the social distance and “go out” from home for job, income, and foods. These “go out” has increased their probability of Corona virus infection and finally put them into the life threatening condition. Thus, considering the prevailing situation, we are going to aware and educate them this cycle of outbreak, and also provide food and hygiene materials so that they can observe the locked down staying inside the home and will prevent the outbreak intensively.

Project Activities and Achievements:

- Establishment of COVID19 Information Centers – 4 (12,150 patients)
- Awareness raising campaign on preparedness and response on COVID 19 prevention – 4400 sessions (44,002 participants)
- Awareness Raising Campaign on COVID19 through Local TV Channel - 5
- Awareness Raising Campaign on COVID19 Prevention by using Hand Mike – 718

announcement covering 21,668 people

- Technical collaboration with local authorities – CS, DRRC, URRRC, UNO, UHC
- Support Marginalized Community People with Food Aid – 4400 Families (19578 beneficiaries) for two times
- Provided Nutritious Food to the Children – 4400 Children for two times
- Distribution of Toys to the Children – 4400 Children
- Children Learning Materials – 4400 Children

Improving hygiene habits and behaviour change for children and adolescent, Cox's bazar, Bangladesh

The duration of the project is from May to December 2020 financed by Welthungerhilfe Germany. The project area covered the location is Camp 24 and 27 at Teknaf Upazila,

Cox's Bazar District. The project beneficiaries are 8,000 Households of Rohingya and Host Community Peoples.

Project Activities Targets and Achievements:

Sl	Name of Activities	Target	Achievement
1	Awareness sessions on prevention of COVID-19	800	817
2	Awareness sessions on personal hygiene session with children	400	327
3	Awareness sessions on Hand washing practices	800	817
4	Awareness sessions on dental care practice for children	400	301
5	Learning fun activities sessions for children	600	671
6	Sessions on educating children on how to use latrines correctly	400	411

Support in the areas of drinking water, sanitation and hygiene for Rohingya Refugees and Host Communities in Teknaf, Bangladesh

The duration of the project is from June 2020 to November 2021 financed by Welthungerhilfe Germany. The project area covered the location is Camp 24 and 27 at Teknaf Upazila, Cox's Bazar District. The project beneficiaries are 3,250 Households of Rohingya and Host Community Peoples.

Output 1 critically needed WASH infrastructure and services shall be established and maintained in camps and partly in host communities. Therefore, 2000 waste containers will be distributed, 150 waste collection points set up and waste collection organized (activity 1.1), latrines desludged and rehabilitated (activity 1.3), two solid waste management plants, and two faecal sludge plants established (activity 1.2 and activity 1.4). Furthermore 170 improved toilets, 170 bathing cubicles, 184 hand washing stations will be constructed (activity 1.6), 180 solar lights installed (activity 1.7) and maintenance and operation of the WASH-infrastructure ensured by 15 trained volunteers and 6 WASH maintenance groups (activity 1.5 and activity 1.8).

Output 2 intends to ensure access to safe drinking water in camps by establishing operation and maintenance of 7 water supply schemes (activity 2.1), distributing 3000 water storage containers to households (activity 2.2) and rehabilitating two water pumps (activity 2.3).

Output 3 aims at improving hygiene practices

of the target groups. The distribution of 2500 hygiene kits and menstrual hygiene kits (activity 3.2) will be combined with 880 hygiene promotion sessions including information, education and communication (IEC)-material and training of 60 volunteers (activity 3.1).

Project Activities Achievements:

- Conduct waste collection (spots): 122
- Soaps distribution: 13095 pcs among the 873HHs
- Operation of solid waste management plant/dumping station: 2
- Desludging of latrine: 195
- Maintenance and operation of bathing cubicles: 113
- Maintenance and operation of Drainage channels: 8150 RFT
- Formation of WASH Maintenance Group: 6
- Operation and maintenance of Water supply schemes: 6
- Chlorination of Water: 30 days 12 storage tanks
- Decommissioning of latrine-4
- Conduct hygiene promotion sessions (house to house): 3534 (16391)
- HH level hygiene practices follow up on hand washing: 1249+1230
- WSP campaign at the water points: 19
- HH level solid waste bins distribution (IOM):1746
- Campaign on solid waste bins usage: 873 HHs
- Maintenance and operation of Latrine-46+29

Humanitarian aid in the field of WASH for vulnerable Rohingya Refugees and Host Communities in Cox's Bazar, Bangladesh

The duration of the project is from January to June 2020 financed by Welthungerhilfe Germany. The project area covered the location is Camp 24 and 27 at Teknaf Upazila, Cox's Bazar District. The project beneficiaries are 6,000 Households of Rohingya and Host Community Peoples.

Project Objectives:

1. To ensure regular, sufficient, equitable and dignified access for all refugees living in camps and affected Host Communities to sufficient and safe water for drinking and domestic needs
2. To ensure all refugees living in camps and affected Host Communities have adequate, appropriate and acceptable sanitation (including household waste) facilities to allow rapid, safe and secure access at all times
3. To ensure the change of potentially dangerous behaviours through access and exposure to innovative hygiene promotion (including hygiene items) for all refugees living in camps and affected host communities.

Achievements:

Latrine Constructions:

The project team has completed 20 latrine constructions at the Camp 24. The targeted beneficiaries i.e. the Rohingyas are now using these latrines with full satisfactions. They are practicing the sound sanitation with these sanitary facilities.

Construction of Bathing Cubicles:

The project team has constructed 10 bathing cubicles during the project period at the Camp 24. The Rohingyas are now taking their bathing facilities at these bathing facilities with full satisfactions. They are also maintaining the sound hygiene behaviours with such facilities as was not available for them.

Installation of Hand washing Devices:

During the project period, the project team has installed 100 hand washing devices at the Camp 24. The hand washing facilities have significant impact on the sound hygiene management and also facilitate the scope for hand washing frequently to prevent the infection of Corona virus. The Rohingya households at the catchment of each hand washing devices have highly appreciated such timely initiative of Anando particularly for prevention of COVID19.

Hygiene Promotion Session:

The prescribed manual has introduced to support hygiene promotion in the implementation of WASH awareness activities in the field of Anando. The manual is organized into six different modules. During the reporting period, the Community Mobilizers have conducted total 1527 sessions among the 15270 participants. Each Community Mobilizer has conducted two sessions per day. At community level, male Community Mobilizers are conducting sessions with male groups and female Community Mobilizers are conducting sessions with female groups. Hygiene promotion session is stopped from 22/03/2020 as per WASH sector decision because of COVID-19 situation. So, Session haven't done from 22/03/2020.

The details information of the session as below:

# SL	Name of topic	# of session	# of participants			Remarks
			Male	Female	Total	
01	Hand washing practice & MHM	940	4990	4410	9400	
02	Safe water use & prevention of COVID-19	587	3090	2780	5870	
	Total	1527	8080	7190	15270	

Households Visit: After 22/04/2020 we have started message delivery through house visit instant of hygiene promotion session as per WASH sector decision and guideline to prevention of COVID-19. The message delivery total 12399 HH has covered up to May-2020 through house visit. Key messages were:

- Hand washing practices & its importance to prevent COVID-19 risks.
- Why stay at home?
- Importance of social distance.
- Why we maintained social distance?
- Avoid mass gathering.
- Mask use & re-use.

We face some challenges at that time, these are:

- Male participant could not stay at home.
- could not obey the maintain social distance properly (specially distribution points)
- Rohingya people believed corona virus is nothing all mighty Allah is all in all.
- They believe Rohingya peoples are not affected with COVID-19
- In this time water crisis is so high in camp level. In this reason handwashing practices are not increase.

Visitors in 2020

DLB visit team observing the Handicrafts Activities at Ramghar Women Empowerment Project.

Dr. Abdul Mueyed (DG, DAE, Khamarbari, Dhaka) had visited our Sustainable Integrated Farming System (SIFS) of NSV project.

DLB visit team attending with the beneficiaries and reviewing the family development progress of IFDP project, Sharishabari, Jamalpur.

Dr. Munshi Rashid Ahmed (CSO, HARS, Khagrachari) had visited our nutrition garden of NSV project.

Mohammad Ullah (UNO, Dighinala) had visited our nutrition camp of NSV project.

Dr. Nupur Kanti Das (Civil Surgeon, Khagrachari) had visited our nutrition camp of NSV project.
